Junior Golf Program

Junior golf is an integral component in growing the game of golf. This Development Program is designed for ages 9-17. The goal is to get more of our junior members interested in the game. All abilities are encouraged to participate.

We will be offering an extensive program that will not only be fun, but a great learning experience that all juniors can benefit from. Our ultimate goal is to develop players to enjoy the game and prepare them for competitive golf. This structured program will offer weekly instruction covering the golf swing, proper course etiquette, basic rules of golf, introduction to different formats of play, friendly matches against fellow junior members and a lot more.

Experience from this program will benefit anyone whether they want to just play for fun, compete in our Junior Challenge Cup against Hopkinton Country Club, or prepare them for high school golf. No matter what your ability is, we expect all will improve their game in some capacity by participating in this program along with practicing several times a week.
